

THE D. E. STEARNS COMPANY

MODEL 10/20 HOLIDAY DETECTOR

The D. E. Stearns Company, the originator of the holiday detector, now offers the latest in holiday detector technology with the revolutionary new Model 10/20. The Model 10/20 has a safety feature that allows for immediate shut off of the instrument.

The Model 10/20 ergonomic handle features an “open

grip” design that accommodates all hand and glove sizes for easy operation. The electronic membrane gives the user push button operation with large button area for use with gloves. The membrane is weather sealed for long life.

The Model 10/20 is compatible with previous design accessories for interchanging components.

Safety handle gives operator greater command and control of the holiday detector with instant shutoff capability

Product Specifications

Output Voltage Range	Low: 800v - 8,000v / High: 3,500v - 35,000v	
Meter Resolution	100 volts	
Accuracy	+/- 5%	
Input Voltage	6v Battery 110v AC Batt. Charger (220v AC Charger available)	Shipping Weight:
Dimensions-Instrument	2.5" x 21.5" 2.75" (64mm x 546mm x 70mm)	40 lbs (18.14kg)
Dimensions-Case	40.5" x 17" x 7" (1029mm x 432mm x 178mm)	Weight will vary depending upon electrode choice

Kit includes:

- Instrument with (2) batt.
- Battery Box
- 110v AC Battery Charger
- Ground Cable, 20'
- Wand Handle, 18"

- Spring Electrode Connector
- Screwdriver
- Inspection Paddle
- Carrying Case
- Instructions
