

THE D. E. STEARNS COMPANY

MODEL PRM - PEAK READING METER

Specifically designed for use with Pulse-type DC High Voltage Holiday Detectors, such as the D. E. Stearns Co. Models 10/20, 14/20, or the older Models 10, 20 & 20-S High Voltage Holiday Detectors. The large digital readout shows output voltage of the holiday detector. The Model PRM is battery operated and portable and is a great asset in the field. The PRM will read pulse type DC voltages with rising times as fast as 1 millisecond. The peak reading is shown in kilovolts on the display.

Product Specifications

Voltage Range	Up To 40kV	
Voltage Meter	5 Digit Meter, Large Size, Easily Read	
Response Time	Up to 1 m/s rising time	
Input Voltage	6 "AA" Batteries	Shipping Weight:
Dimensions-Instrument	8.5" x 6.5" x 3.5" (206mm x 167mm x 90mm)	5 lbs. (2.27 kg)
Dimensions-Shipping	15" x 11" x 8" (381mm x 279.4mm x 203.2mm)	

Kit includes:

- (1) Instrument (batteries included)
- (1) Ground Cable
- (1) High Voltage Cable
- (1) Operating Instructions
